

Advice to Prospective Furniture Buyers!

HEEDED the advice sent out in the fall of 1918 and the spring of 1919, by the large furniture manufacturers, that dealers throughout the country order immediately all the goods needed for the following year, AS PRICES WOULD ALL SEE SHARP ADVANCES and merchandise would be hard to get because of over-sold conditions, strikes, railroad troubles, scarcity of lumber, etc., I placed many large orders, and so far have been fortunate enough to get about one-half of the goods ordered, and have still in stock and warehouse many pieces of fine furniture, which I will sell at

"Much Lower Prices Than Those Quoted in City Stores"

If interested in Furniture we believe it would be to your interest to look over our line before buying, and think that the goods offered and prices quoted will appeal to you—as we can surely save you from 25 to 30 per cent. from the prices quoted in Toledo stores for goods of high quality. Within a few days we will show a nice line of Over-Stuffed Davenports, Suits, etc., direct from the factories at Grand Rapids.

Call and look over my line and get my prices and terms.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the Mucus Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and get testimonials.

Jane Palmerton has asked the court to grant her divorce from her husband, William Palmerton, whom she claims is guilty of gross neglect and unmindful of his marriage contract. The plaintiff avers that the defendant has been accustomed to neglect to perform the usual and ordinary duties on the farm where they have been living, compelling her to earn the living for herself and a family of four children, of which the youngest is 18 years old and the eldest 27 years.

She further states in her petition that defendant is guilty of extreme cruelty in that he called her vile and abusive names and threatened to do her bodily injury, threatening at one time to shoot her. After which, plaintiff says, she approached defendant and attempted to reconcile him, begging defendant to dwell and abide in peace with her; but to no avail, as defendant said he did not care to live with plaintiff. Wherefore, the wife prays that she may be divorced from her husband and the court grant her proper relief in the premises.
